

INFORMATION FOR DISTRIBUTORS

# NOVEMBER 2012

We introduce November releases today to make you ready for the top sales of the year. It is a traditional mind, however. It is questionable if it is valid for our industry too, because seeing our regular statistics, I see the top of sales in January and February, in the months after Christmas, not before. So or so, if it has to be different this year, we are ready. We will acquire all November releases to our stock already before October 25th, 2012. If you employ our pre-order system, you can receive your deliveries already in early November, which could surely help you in your pre-Christmas activities. I suppose you agree that our pre-order system runs well in past year. If there is a temporary lack of an item caused, it comes usually from the market skepticism and lower orders in the first round of orders. It could be fatal, like in the case of the P-38J over Europe in Limited Edition, when we weren't able to resupply couple of the customers because the item was simply sold out. I think it could be important experience for the November items, because you can find the new Lightning in the list today. It is P-38F/G and H under the item name Early Lightnings. Following the mentioned traditional skepticism, you can expect these early birds are less interesting than popular J, but I trust they aren't. There is not only so great set of resin and PE upgrades, but also eye-catching and interesting choice of the marking with great set of decals. Which is anything always selling the kit well! I remind the edition makes 1500 pcs again.

In this connection I would like to advise the PE set 48 748, developed to upgrade these P-38 kits of the

Limited Edition. We expect this set will be also available the limited time only.

We also re-release the Bf 110 Dashboard in 1:4 scale again. The same kit was released and successfully sold-out some three years ago.

Talking the kits, I have to mention the 1/72nd scale MiG-15bis in the Profipack line, which is actually the main kit release for November. You know that we started the releasing of the MiG-15 family with the Limited Edition kit dedicated to the service of the Fagots in the Czechoslovak Air Force, and many abroad customers call now for the other countries markings. So, here they are! This packing is about them, and the marking selection covers the most spectacular war and crisis of the fifties and sixties, like Korean war or Suez crisis.

There are many interesting PE sets in our November list, many of them in 1/72nd scale, like the sets for new B-17F (Revell), our own MiG-15bis or Airfix Spitfire Mk.22. Two new sets for new Yamato in 1/350th scale represent the ship sets for November. It became difficult to count how many times we already designed a set for Yamato in past 23 years!

Something few about Brassin sets on the end of this foreword. Notice that we continue with developing the sets of the weapon, classical guns as well as the missiles and rockets in this line. Also, I see the B-25J wheels in 1/32nd scale as a potential bestseller. And also, note two new sets for our Bf 110 in 1/72nd scale. The cockpit for Bf 110E has a modular design, which means we can bring other cockpit sets for other 110 versions very quickly. It could be good to check

the quality of this set, because this is anything which has to be followed in our Brassin production. I personally expect this line has a good future ahead!

We are looking forward to see many of you in our E-day next week in Prague. E-day is now very nice event. In the Middle European region, and became a great forum to discuss business together, as well as to talk about the future of our industry. See you there, and good luck with your preorders! Please return your preorders as soon as possible, if possible before the October 1st. You will help us very much to coordinate our production activities in the latest months of this year. Thank you very much!

Vladimir Sulc

# Bf 109E-1

**WEEKEND**  
edition

1/48

6./JG 52, Husum, Germany, 1940

The Weekend edition brings you the cheap variant of Eduard kit Bf 109E-1 in the 1/48 scale.

User friendly decals in high quality are designed and printed by Eduard.

This kit, in very fair price, does not contains photo-etched accessories, nor the painting mask.

## BASIC INFO:

NAME: Bf 109E-1

CAT. NO.: 84164

SCALE: 1/48

RANGE: Weekend

TOOLS: Eduard

## CONTENTS:

SPRUES: 4

## RELATED PRODUCTS:

48720 Bf 109E-1 1/48 (PE-SETS)

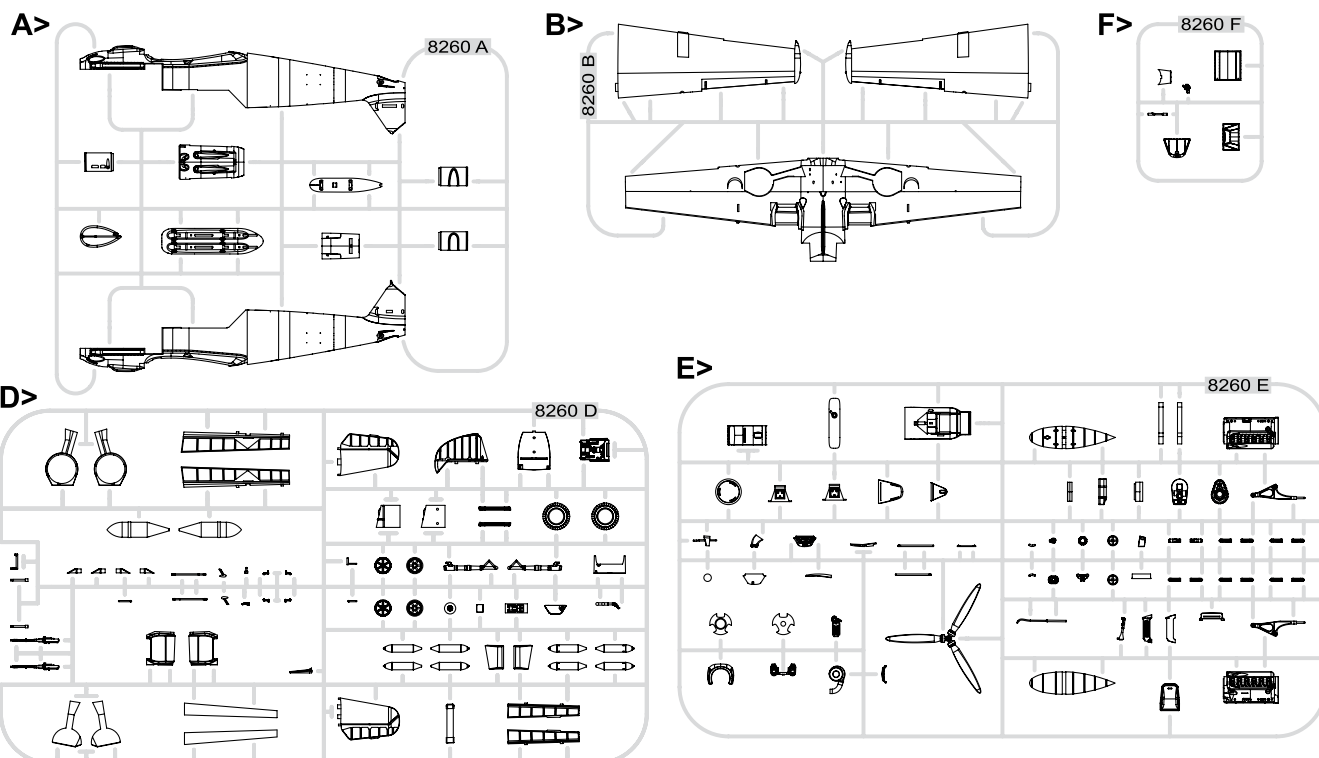

648063 MG 17 1/48 (Brassin)

648059 DB 601A/N engine 1/48 (Brassin)

648074 Bf 109E cockpit and radio compartment 1/48 (Brassin)

672058 Bf 109E wheels 1/748 (Brassin)

## KIT PARTS

Limited edition of the P-38F/G/H Lightning (early versions) in the 1/48 scale is based on Academy plastic parts. The increasing value of that kit is made by the Eduard additional detailing sets (exclusively included in this kit only).

The Eduard Brassin accessories covers the cockpit (pilot's compartment bay, pilot's seat, armor plate behind the seat, radio equipment), the superchargers (the entire supercharger, plus the supercharger intakes located on the engine sides) and landing gear wheels (including the front wheel, with superb details on their discs, also as the fine tire pattern).

The photoetched accessories (colored) contains the instrument panel and seatbelts, air intake strainers and structure of the coolers intakes, landing gear interior and various exterior details.

The decal sheet designed by Eduard and printed by Cartograf features six colorful and attractive markings for early Lightnings serving with various USAAF units.

Only 1500 boxes available.

#### 632014 B-25H/J wheels 1/32 HK Models

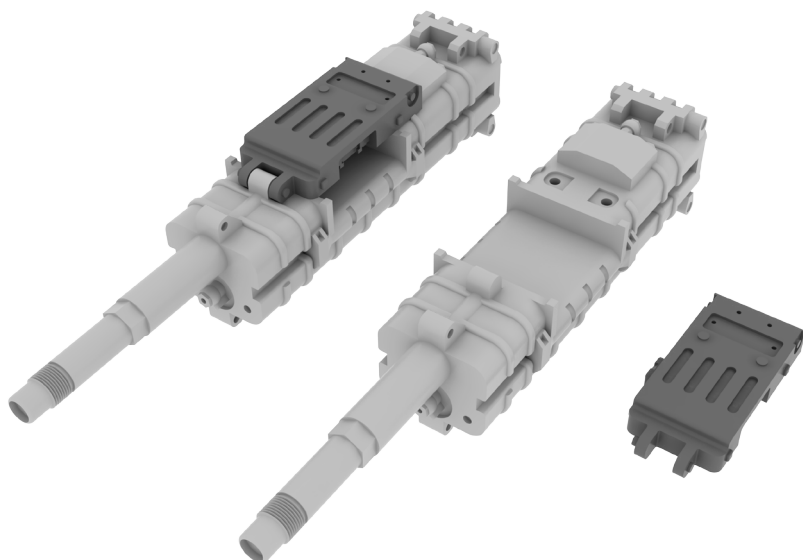

Set focused to HK Models B-25H/J 1/32 contains the main landing gear and nose wheels with fine detailed tire, discs and other wheel accessories. A wheel disc from PE included, also as the painting mask.

#### 648082 R-60 / AA-8 Aphid 1/48

Set contains 4 pcs of the infrared guided air-to-air Soviet missile R-60 Molnyia (NATO coding AA-8 Aphid) in the 1/48 scale. Set contains detailed rocket body, racks, wings and warhead protection. Photo-etched details. This is a missile widely exported by Soviets, so with a wide use worldwide. Used on planes such as MiG-21, MiG-23, MiG-25, MiG-27, MiG-29, MiG-31, Su-15, Su-17, Su-20, Su-22, Su-24, Su-25, Yak-28, Yak-38, Yak-141, Mi-24, BAe Hawk and others

#### 648083 MK 108 gun 1/48

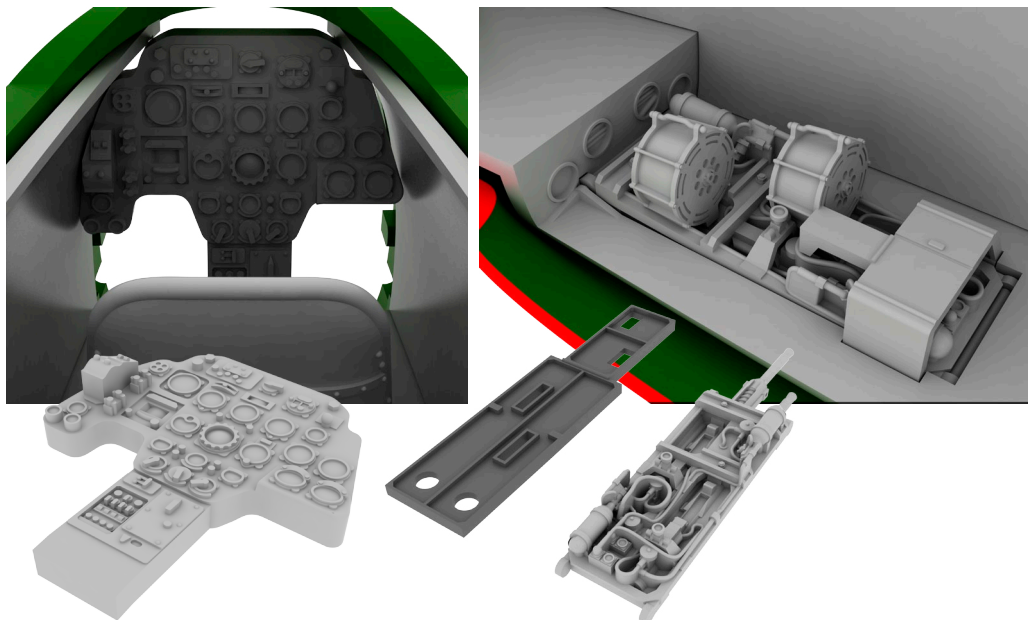

Set contains two pieces of the German famous Rheinmetall-Borsig MK 108 30 mm cannon in the 1/48 scale, each composed of two parts (the main body and barrel, plus the ammo bolt deck (Gurtzuführung)). This highly detailed accessory can be used together with the Eduard 1/48 Fw 190A-8/R2 or any manufacturer kit of Luftwaffe planes using this gun, such as Me 262, Me 163, Ho 229, Fw 190D-11, particular variants of Bf 109, Bf 110, Ta 152, He 162, etc.

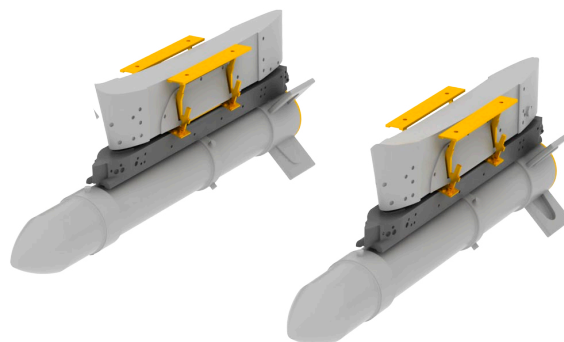

**672004 Bf 110E cockpit 1/72 Eduard**

Large set contains highly detailed cockpit interior for Eduard Bf 110E in 1/72. It is composed of the entire cockpit parts such as floor, seats, side-walls, pilot's compartment, radio equipment, rear gunner's equipment including ammo magazines, movable MG FF mount incl. its cover panel etc. PE details included.

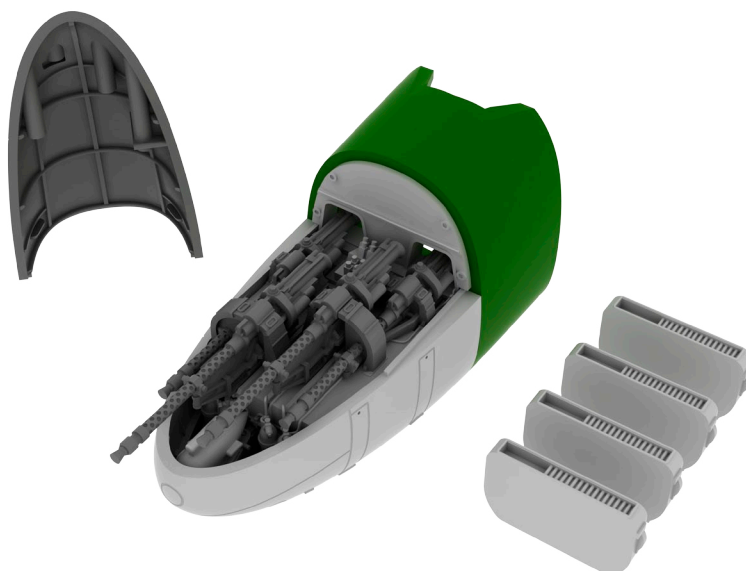

**672009 S-21 Soviet unguided rocket 1/72 Eduard**

Set contains 2 pcs of the Soviet S-21 210 mm caliber unguided air-to-ground rockets in the 1/72 scale. Set contains as well detailed rocket body, underwing pylons and racks. Photo-etched details. Designed for Eduard 1/72 MiG-15/MiG-15bis kits.

Can be used also on other models of types such as MiG-17, MiG-19 and MiG-21(F-13).

**672010 Bf 110C/D nose guns 1/72 Eduard**

This set is focused on Bf 110C and D versions by Eduard in 1/72 scale. The MG 17 machine guns were used in early versions of the Bf 110s as a fuselage weapon. Set consists from four machine guns, their supports and all accessories including ammo boxes. Separate gun-mount housing is made extremely thin. A new bottom nose section is included.
