

INFORMATION FOR DISTRIBUTORS

## **AUGUST 2019**

Dear friends,

The most important new of today's newsletter is, that our Sales Department was re-opened in new location on Friday, June 7, 2019, and is fully operating now. Also, the July releases are completely available and ready for dispatching. Please complete your orders.

Concerning the August 2019 releases, please pay your attention to the Limited Edition kit item #11134 Chattanooga Choo Choo. This is the first item based on the new 1/48th scale P-51D Mustang kit, and it is released as a show special item for IPMS USA Nats in Chattanooga, Tennessee. This item will be available by Eduard first during the show, which will be on August 7th - 10th, 2019. The item will be available for distributors and shops, the pre-ordered amount only, with availability for shipping since August 5th, 2019. If you are interested in this item, and I recommend you to be because this one is expected to be real bestseller, pre-order asap. If you have any questions about this item or about the shipment schedule for this item, don't hesitate to ask me! Note the preorders must be sent until Thursday, June 20. Thank you for your kind cooperation and for your preorders!

About the regular items, see the four new kits with Bf 109G-6/AS in 1/48th scale ProfiPack line, MiG-21bis in 1/48th scale Limited Edition line, Albatros D.V in 1/48th scale Weekend line, and A-4F in SUPER44 1/144 line. Among the photo etch and mask lines, pay your attention to the 1/32nd scale sets for Fw 190A-8/R2 and Bf 110C-2/C-7 by Revell (ex-Dragon), as well as to 1/35th scale sets for MH-60L, released among the 1/32nd scale aircraft line. Talking about real 1/35th scale line, see the SU-85 set designed for Zvezda kit, and the set for M10 Achilles IIC by Tamiya. We do have new design of the sets for Yak-1B, released by Zvezda, which is the older Accurate Miniatures kit, known also in Eduard boxings. In the 48th scale, see also the redesigned sets for F-4J (Academy), F-22 (Hasegawa) and A6M5 Zero (Tamiya). 1/72nd scale will be the sets

for B-24J (Hasegawa), Su-30SM (Zvezda), Mi-24V (Zvezda again) and Eurofighter 2000 (Revell). Among the Brassin line, see the redesigned sets Bf 109E engine 1/32 and Bf 109E fuselage guns 1/32, suitable for Legion Condor Bf 109E-1/E-3 kit released right now among the June releases. Similarly Bf 109G-10/U4 cockpit 1/48 is suitable for brand new Bf 109G-10s (kits 82161, 11122), however these U-4 versions, equipped by 30 mm MK 108 cannon mounted in the engine axe. Note the MiG-21 F.O.D. 1/48 set, which is upscaled version of the 1/72 June release 672218 MiG-21 F.O.D. 1/72. The 1/35th weapon line is continuing with STEN Mk.II submachine gun set, 1/48th scale weapon line grows with SUU-7 dispenser w/ extended tubes (648478). The Look sets are three for August, all in the 1/48th scale, with the P-51D-5 set among them. D-5 signature is important, because these early P-51D-5 Mustangs were equipped by different dashboard as well as seat then the latter modifications. There are other three, still small sets developed for the new Eduard Mustang among the August releases, except the Look these are P-51D exhaust stacks w/ fairing (648486) and P-51D wheels diamond tread 1/48 (648494). There is no any new BigSin set on the August releases list, but the BigEds are six.

That's it, enjoy our today's newsletter. After the study of this surely inspiring material, please send us your pre-order sheets no latter than July 1st, 2019. Thank you very much for your cooperation!

Vladimir Sulc, CEO, Eduard MA
