

INFORMATION FOR DISTRIBUTORS

SEPTEMBER 2019

Dear friends,

it's time to introduce Eduard September 2019 new releases today. First, just let me some important notes. Please note the item 82163 Bf 109G-6/AS announced as August release was cancelled as August release and is now re-scheduled for November 2019. The reason is that we concentrate all our engineering capacities to the finishing the tools for P-51D Mustang in 1/48th scale.

As we informed you moth ago, the first P-51D-5 Mustang release is prepared for early August. This item, 11134 CHATTANOOGA CHOO CHOO, is a Limited Edition item, released as a show special for IPMS USA National Convention in Chattanooga, Tennessee (from August 8th, 2019 till August 11th, 2019). This item will be released out of the standard process and will be available for the dispatching on August 5th, 2019. Because the limited quantity will be available, I highly recommend you to preorder this item asap. You can see the content of the kit in this newsletter.

Among the regular September 2019 releases, see the new 1/48th scale Airacobra in Profipack line, 8092 P-400. The kit brings new selection of the painting schemes, newly designed photoetched sheet. This item replaces successful old P-400, sold out couple of years ago. 11131 JaBo is a 1/48th scale Limited Edition item built using the Fw 190A plastic. The kit represents the early bomber-fighter versions of the Fw 190A-5/U3 a Fw 190A-5/U8. 7451 MiG-21MF Fighter-Bomber is a 1/72nd scale Weekend version of the MiG-21MF. There is also fourth kit release prepared for September, which is the 1/72nd scale

Spitfire Mk.IXc in Profipack line, which is re-released sold out item.

Concerning the aftermarket items, I recommend you to pay your attention to several groups of sets, for example for 1/32nd scale P-51D (Tamiya) or for P-47D-25 (Hasegawa) in the same scale. The others are 1/48th scale sets for Do 215N-1 by ICM, Si 204D by Special Hobby, Typhoon Mk.Ib and F-16I SUFA both by Hasegawa. Among the 1/72nd scale sets, see these for Super Mystere by Special Hobby and MiG-21F-13 by Modelsvit. In the Brassin line, the most interesting one is the cockpit set for 1/32nd scale Spitfire Mk.IXc by Tamiya. See also two new Look sets, and the group of new weapon sets in various scales.

The August releases will be available for the shipping late this week. Please complete your orders. Thank you very much for your time and your kind cooperation!

Vladimir Sulc, CEO, Eduard MA
