
INFORMATION FOR DISTRIBUTORS

JANUARY 2020

Ladies and gentlemen,

We are back to introduce you the new releases prepared for the January, 2020, and also to inform you about the delivery and sales processes during end of this year, in November and December, 2019, and also the early days of January, 2020. Concerning the December news deliveries, the complete figure of the December releases will be available on Monday next week, November 18th. The deliveries are expected to be dispatched during the second half of the week (week 47), including of the ordered items of the 2019´s seasonal clearance sales. The list of the sale items and conditions will be posted in separate email by Petra Pavlickova once again.

Concerning the December dispatching schedule, it is expected that the January 2020 new releases will be available for dispatching on Monday, December 16th. It would be very welcome, if you complete your re-stock and new releases orders during the week before (week 50th). Actually, the very last for the re-stock orders which could be dispatched prior Christmas is Wednesday, December 11th. Our store will be then closed for inventory on next Thursday, December 19th, which is the day when the latest deliveries of this year will be dispatched. We expect the sales department will be re-opened on January 6th, 2020. However, you can send your orders anytime in Christmas/New Year period, but the first day when we can dispatch a delivery is expected the mentioned Monday, January 6th, 2020.

For sure, there is the tabular timetable bellow:

Monday, November 18th: December releases available. Clearance sale (Sweep 2019) starts.

Friday, November 29th: the deadline for the January 2020 releases preorders.

Monday, December 2nd: clearance sale ends, the deadline for the clearance sale´s orders.

Wednesday, December 11th: the deadline for the December ordering.

Monday, December 16th: January 2020 releases available, dispatching of the deliveries starts.

Thursday, December 19th: the Eduard store closes, dispatching ends.

Monday, January 6th, 2020: the Eduard store opens.

I hope this is clear. If not, don´t hesitate to ask us for additional explanation!

Concerning the January 2020 new releases, there are four new kits prepared. In the 1/72nd scale ProfiPack line, we are ready to release a new member of the MiG-21 family, MiG-21PFM. This is the new kit, employing the new set of tools, only one frame is shared with the older MiG-21MF series. In the 1/48th scale Limited Edition line, we are going to introduce the Eikó, which is the F-104J Starfighter. The plastic is Hasegawa production, with Eduard mask, photoetch, resin ejection seat and decal sheet with eight marking and painting versions. This a booked item, with the photographic book by Isami Akiyama & Eiki Nakashima. The book is written in English. Although there is a new kit of the same type on the market, released couple of week ago by Kinetic, we trust our kit will be successful thanks its equipment and the book inside.

The 1/48th Weekend edition will see the Fw 190A-8, and the Super44 the MiG-15bis, in 1/144th scale, of course. Check also the list of the aftermarket sets, there are many of interesting items. The potential bestsellers would be the sets for 1/48th scale B-17G by HKM, also the sets for F-14A by AMK. We do have also sets for new B-26B Invader (ICM), and there are also two ejection seat sets for F-104G (Kinetic) among the Brassin sets, as well as the bronze undercarriage legs set for P-38 (Tamiya). See also the 1/32nd scales sets for He 111P (Revell). We do have many new 1/72nd scale mask and PE sets, including the sets for new Airfix releases, MiG-17 and Buccaneer. We decided to re-design the sets for older Hasegawa 1/72nd scale kits, SBD Dauntless and TBM/TBF Avenger, which are now re-boxed in Poland. See also the set for new MiG-21PFM, and for F-14D by Great Wall Hobby also. You can find the sets for less known aircraft manufactured by less known manufacturer among the mask sets, for example for Ki-51 Sonia (1/72, Clear Prop) or W-3A Sokol (1/48, Answer). Although these kits could be taken as short runs, we expect the mask sets would be useful for modelers so they could be sellable items. See also the set for M4A3 (76) for 1/35th scale MENG kit, and the first set for USS CV-10 Yorktown (1/350, Trumpeter). There are couple of new Look sets, see the ones for 1/48th scale F-104. We do have also three new decal sheets. BigEds are four, and there is also single BigSin set for P-51D Mustang (1/48, Eduard) in the list.

The list of the January releases is quite long, please study it carefully. Be so kind, place your pre-orders not later than November 29th, 2019. Thank you for your kind cooperation!

Vladimir Sulc, CEO.

Product previews are subject of change.
