

INFORMATION FOR DISTRIBUTORS

JUNE 2023

Dear friends,
In today's Leaflet you will find the upcoming releases for June 2023.

THE KITS

In June we will release four new kits as new items and one more that was released earlier and not available for some time.

The most awaited kit is WUNDERSCHÖNE NEUE MASCHINEN part 1, is the 1/72 scale Limited Edition Dual Combo, dedicated to Messerschmitt Bf 109F-2 and F-4. The kit includes two sets of frames, containing two fuselage versions and three wing versions, used on different developmental variants of the Bf 109F-1, F-2 and F-4. The kit offers 14 decal options, one F-1, six F-2 and seven F-4, including tropical and fighter-bomber versions. The selection is full of famous names such as Mölders, Priller, Nowotny, Marseille, Bär, Graf and others. The design of this kit is a direct follow-up to the 1/725 scale Avia S-199 released last year. It will be followed by other parts of this extensive project in the following months: in September will be released WUNDERSCHÖNE NEUE MASCHINEN Volume 2, dedicated to the Bf 109G-2 and G-4, in October will follow ProfiPACK Bf 109F-2, in December will be released Bf 109F-4. After the New Year, we will continue with a Limited Editions dedicated to the Bf 109G-6 and G-14 and other ProfiPACKs. Weekend editions will be added during the same year, as well as Limited Editions dedicated to the Bf 109G-6/AS and G-14/AS, and later on the G-10. We will conclude the project in following year with the release of the Bf 109K-4.

In the ProfiPACK edition we are releasing two kits in June. The first one is a British WW1 Sopwith 2F.1 Camel fighter aircraft in 1/48 scale. This naval version of the legendary British fighter plane was modified for takeoffs from platforms mounted on the turrets of large warships or from the decks of early aircraft carriers. The split folding fuselage made it easy to store the aircraft on the decks. The kit offers six marking options, including the machine that took part in the famous raid on the Zeppelin base, or the Camel that joined the fight against the Bolsheviks in 1919.

The second kit in the ProfiPACK edition is a re-release of the 1/48 Messerschmitt Bf 109G-6 in late version. We have not changed anything about its content, from the decal sheet it will be possible to build one of the five machines, including the personal mounts of Hermann Graf and Anton Hafner. We have also not changed the box art by the famous Shigeo Koike.

In the Weekend edition we are also releasing two 1/48 scale kits. Tempest Mk.II will offer two RAF machines and one each Indian and Pakistani aircraft.

The second kit in the Weekend series, the A6M2 Zero

Type 21, is one of the highlights of the June releases. Its boxart takes us back to the very beginning of the Pacific War, the raid on Pearl Harbor, with the famous scene of the attack by fighters from the aircraft carrier Akagi on the landing B-17 crew of Capt. Swenson on Hickam Field. The kit will offer decals for four machines. In addition to the aircraft from the Akagi carrier, it will include a machine from the fighting in present-day Indonesia from the 3rd Kōkūtai, a Zero from Kōkūtai 261 based at Saipan, and a very interesting and unusual Kōkūtai 302 night fighter from the summer of 1945 with black undersurfaces.

BRASSIN

In June we are releasing a detailed cockpit set for Tamiya's new 1/48 scale F-35A, of course made by direct 3D printing. It's ready for virtually seamless insertion into the fuselage.

For the 1/48 scale Wildcat (Eduard), another engine set with engine cowlings is included, this time it will be a set for the so-called mid version. In connection with the re-release of the kit Bf 109G-6 late (Eduard), we have prepared a new cockpit set, based on the design of the original resin cast set, but reworked into a direct 3D print. We have redesigned the interior set for the Fw 190F-8 fighter in the same way. I'd like to point out that this is a big improvement in terms of the user comfort of accessory sets. Especially for the Bf 109G, this step eliminates some flaws in the fitting of the original set with the plastic parts, resulting from the lack of dimensional stability of the resin castings. We will of course gradually release accessories for the new 1/72 scale Bf 109F (Eduard). In June we start with sets for propeller, wheel and weapons.

A weapon set is also included in the June collection for the 1/48th scale naval Camel 2F.1 (Eduard), and a pre-painted radio set is included for another Eduard kit in the same scale, the Bf 110G. We are releasing engines (without engine cowlings) for the B-25J in 1/48 by HKM, and for the Mi-8MT (Zvezda) and Mi-17 (AMK) helicopter kits in 1/48, we have prepared the wheel sets. We are also releasing landing gear wheels for the new Spitfire Mk.IXc in 1/24 scale by Airfix.

Among our generic sets we will add a ladder for the F-16 fighter in 1/48 scale, as well as additional magazines for Lewis machine guns and four sets of equipment for German WWII combat vehicles in 1/35 scale.

SPACE

The June offer includes a total of eight items in the Space range. In 1/32 scale it is a set for Spitfire Mk.I (Kotare), in 1/35 scale for AH-64E (Takom). In 1/48

scale are sets for PV-1 (Academy), Dornier Do 335A Pfeil (Tamiya reissue), as well as a set for Mi-8MT helicopter kit (Trumpeter) and F-4E (Meng). A 1/72 scale set for Eduard's new Bf 109F and MiG-29 is available from Great Wall Hobby.

Photo-etched parts

For Kotare's Spitfire Mk.I we are releasing a Zoom set, STEEL belts, a large photo-etched set and flaps, other sets are intended for the new kits MiG-29 9-12 (1/72, GWH), AH-64E (1/35, Takom) and F-4E (1/48, Meng).

Tamiya has re-released a 1/48 scale Do 335A Pfeil, following this welcome development our designers have reworked the photo-etched sets we previously produced for this kit. So in June we are releasing the Zoom set, the STEEL belts and the large photo-etched set in a new design. For July we have prepared a set for Do 335A bomb bay.

Back to June, we also have a set for the Mi-8MT in 1/48 scale from Trumpeter. This is a similar set of parts to the Mi-8/17, especially the seats for the cargo area, which are missing in the kit.

In the combat vehicle kit segment we will focus on the Scammel Commander with trailer in 1/35 scale by Hobby Boss. The pre-painted photo-etched set includes lights, reflectors, seat belts and dashboard. Another photo-etched set will be produced for the 1/35th scale M3A4 Sherman by I love kits, and of course we can't leave out the new 1/35th scale Panzer IV/70 (A) by Tamiya.

And in June, we'll follow up with a third set for the 1/350th scale USS Missouri (BB-63) battleship kit from Hobby Boss.

Orders

We would welcome your pre-orders for June items by Monday, May 1, 2023. Thank you!

May items will be ready for shipping on Tuesday, 18 April.

In connection with the Moson Show, which will be held in Hungary on 22 and 23 April 2023, our e-shop will be running a traditional discount event for retail customers.

We are also sending folder with the graphics included in the Leaflet. Many of you are using our Leaflet images for pre-order section of your e-shops and in your newsletters. We hope this will save you some time.

If you would like get more information, clarify some points or if you would need our help, please contact us at [department@](mailto:department@eduard.com) or contact me directly at jan.bobek@eduard.cz

DETAIL

The ProfiPACK edition kit of British WWI fighter Sopwith 2F.1 Camel in 1/48 scale. This version of the legendary fighter was designed as the aircraft to be launched from the platforms mounted on the turrets of the major warships or from the early aircraft carriers. The split and folding fuselage helped to stow "Ship's Camels" on the decks.
