

INFORMATION FOR DISTRIBUTORS

JULY 2023

Dear friends,

In today's Leaflet you will find the upcoming releases for July 2023.

THE KITS

In July we will release four new kits as new items and one more that was released earlier and not available for some time.

I think that MIGHTY EIGHT: 66th Fighter Wing 1/48 Limited Edition kit based on P-51D plastic parts will attract a lot of attention. As the name suggests, it focuses on the history of the five well known fighter groups of this wing: the 55th FG, 78th FG, 339th FG, 353rd FG and 357th FG. It also features the machine of legendary sound barrier breaker Chuck Yeager. The kit will offer decals for ten machines and will also include Brassin parts for the exhausts and wheels. We intend to continue to feature American fighter units from the European theatre in this way in the future.

In the ProfiPACK edition in July we present a 1/48 scale kit of the Japanese A6M2-N Rufe fighter seaplane. The decal sheet will allow you to build one of five machines and the boxart will depict an aerial encounter from the Battle of the Aleutians.

A 1/48 scale kit of the German Bf 110G-4 night fighter will be released in the Weekend edition in July. I recommend paying attention to this item. It is a very popular version of this twin-engine fighter aircraft, so we can expect increased interest in the kit from the modelling community. Its decal sheet will allow to build one of four Luftwaffe night fighter machines.

In the Weekend edition in 1/72 scale we are releasing a kit of the Fw 190A-5 single-engine fighter. It was not available in our warehouse in the past period. Its decal sheet will allow to build one of four machines of the Luftwaffe's day fighter units from Western Europe and the Eastern Front.

In July, we are bringing back the Messerschmitt Bf 109F-2 kit in 1/48 scale in the ProfiPACK edition. As usual with this series, the decal sheet allows you to build one of five machines.

MASKS

I don't usually mention masks in this editorial, they are one of the standard products that the customer community knows well. This time, however, I want to mention five 1/48th scale sets we have ready for July. These are national insignia for Eduard P-51D and A6M2 Zero Type 21, a set of masks for the P-51D/K (Eduard), which is designed for skin panels painted

in different colors, and also two sets for the F-4E (Meng). These are for the tail section and wheel well details. There is a significant change in material for these mask sets, the new foil better suits the colouring of these parts of the models.

BRASSIN

For July there are five sets for the new Eduard 1/72 scale Bf 109F kits. Two variants of undercarriage details, radio, exhausts, fuel tanks and a model of the SC 250 bomb will be produced by direct 3D printing.

I'll stick with Eduard and the Bf 109F, but in 1/48 scale. As part of the reworking of the sets for 3D printing, we are releasing a cockpit just for the Bf 109F in July. I can't leave out the radiator details for the P-51D/K in 1/48 scale (Eduard). Based on the new bases, we have prepared a set that will improve this part of our kits. For 1/48 kit of Dornier Do 335A twin engine (Tamiya) we will release wheels and exhausts in Brassin series. We have also prepared a LööK set for this kit. LööK set is also available in July for Kotare's new 1/32 scale Spitfire Mk.I as well as sets with wheels and exhausts.

For the F-35B in 1/48 scale (Italeri) we have a seat model.

Modelers focused on modern jets will probably be interested in the 1/32 scale model of the engine for the F-16 (Tamiya).

We have designed a simple but nice set with engine models for Anson Mk.I in 1/48 scale (Airfix).

In the BigSin series there are sets for two Eduard kits for July: A6M2-N Rufe in 1/48 scale and Bf 110E in 1/72 scale.

SPACE

The July offer includes a total of eight items in the Space range. In 1/32 scale it is a set for F-35A (Trumpeter) and A-20G (HKM). In 1/48 scale there are MiG-17F (AMMO), Hurricane Mk.I (Hobby Boss) and Mi-4A (Trumpeter) in Space series. One set is planned for 1/72 scale, it will be for Mosquito PR.XVI (Airfix).

Photo-etched parts

For the new 1/32 scale A-20G from HKM, we have designed a set of seat belts, a Zoom set for the cockpit and a large set that will use 0.2mm thick brass for the unpainted sheet metal for better realism of detail in this scale.

For the F-35C (1/32, Trumpeter) kit we have prepared sets based on our previous designs for the F-35A.

For the next Trumpeter kit, the Mi-4A in 1/48 scale,

we have also based the design of the photo etch on the previous sets for the Mi-4. We will also add to previous design parts for the underwing nacelle with machine gun and parts for floor of the transport compartment (we didn't have that in our offer before). We will follow up the etchings for Do 335A (1/48, Tamiya) planned for June with a set for the bombing range in July.

For AMMO's new 1/48 scale MiG-17F, besides the Steelbelts we have prepared flaps, landing gear, cockpit and aerodynamic brake parts for July.

For the Mosquito PR.XVI 1/72 Airfix kit we have modified the photo etched set for the B.XVI version, these are changes to the cockpit and deletion of parts for the bomb bay.

In addition to the standard sets, we are also releasing sets of flaps and wing gun bays for the 1/48 scale Hurricane Mk.I 1/48 Hobby Boss new release.

We are following up the F-4E (1/48, Meng) photo etched sets produced for June with a set of airframe reinforcement plates that can be seen on the surface of the aircraft, as well as formation lights.

Orders

We would welcome your pre-orders for July items by Thursday, June 1, 2023. Thank you!

June items will be ready for shipping on Thursday, 18 June.

I would like to remind you that part of the June news is a new kit from a **new mould**, Messerschmitt **Bf 109F in 1/72 scale**, prepared as a Limited Edition Dual Combo under the name Wunderschöne Neue Maschinen pt. 1 (**cat. no. 2142**).

Also on offer in June is the **A6M2 Zero Type 21** in the **Weekend** edition in **1/48** scale with a selection of four attractive markings (**cat. no. 84189**).

We are also sending folder with the graphics included in the Leaflet. Many of you are using our Leaflet images for pre-order section of your e-shops and in your newsletters. We hope this will save you some time.

If you would like get more information, clarify some points or if you would need our help, please contact us at [department@](mailto:department@eduard.cz) or contact me directly at jan.bobek@eduard.cz

Jan Bobek
