

INFORMATION FOR DISTRIBUTORS

AUGUST 2023

Dear friends,
In today's Leaflet you will find the upcoming releases for August 2023.

THE KITS

In August we will release four new kits as new items and one more that was released earlier and not available for some time. I have to say, there will be a lot to choose from in August!

The first novelty is a 1/48 scale kit in the Limited series under the name WILDER CAT. It focuses on the late version of the Wildcat referred to as FM-2. It was built by the Eastern Aircraft Division factory, which was a subsidiary of General Motors. Due to the more powerful engine, it was the most powerful version of the Wildcat, and was also easily recognizable due to the higher vertical tail. Opponents, however, confused this plane with the original Wildcat version, and pilots of the more powerful FM-2s usually gave them some very nasty surprises in dogfights. That's why we call this wilder version of the Wildcat the WILDER CAT. The kit will include decals for nine US Navy and one Royal Navy aircraft. It will be possible to choose from brightly marked machines that have a coat of one, two or three camouflage colors.

Another item scheduled for August in the Limited Edition is a 1/48 scale kit called THE ZIPPER. It is a cover of the American jet fighter F-104C Starfighter by Kinetic. It features brassin parts and a decal sheet focused on units flying in the Vietnam War. These are aircraft that passed with the 479th and 8th TFW. Some will be done in the paint scheme they had in the US before moving to Southeast Asia. The Zippers will have interesting camouflage and markings, one of which belonged to a pilot who became an ace in WWII with P-38 Lightning.

The ProfiPACK edition will include a 1/72 scale kit of the Bf 109F-4 fighter aircraft. This item is based on the plastic parts included in the 2142 Wundeschöne Neue Maschinen kit released in June, but in this case it is only one set of plastic parts for the Bf 109 F-4 version. The ProfiPACK will include decals for six aircraft of famous Luftwaffe pilots. The western battlefield will be represented by "Assi" Hahn and Frank Liesendahl of the Richthofen Geschwader, the boxart will feature a machine piloted by H.-J. Marseille in Africa, and from the eastern front the machines of "Hannes" Trautloft, "Viki" Bauer and Austrian Heinrich Bartels will be on offer.

In Weekend edition there is a 1/48 scale A6M3 Model 32 "Hamp" kit ready for August. Its decal sheet offers the possibility to build a model of one of the four machines from the South Pacific battlefield. These will include one aircraft with longer gun barrels and also a machine that was found on Ballale Island and is currently being restored to airworthy condition in

the USA. The reconstruction of its camouflage and markings has been handled by both our team and external consultants.

We are re-releasing the MiG-21MF kit in 1/72 scale in the ProfiPACK edition.

MASKS

I don't usually mention masks in this editorial, they are one of the standard products that the customer community knows well. I would like to mention the mask for surface details, so called RAM panels for F-35B kit in 1/48 scale by Italeri. It's a very large set with adequate price, similar to the set for F-35A (Tamiya, 1/48) that we released recently. We are also releasing a set of masks with IJN insignia for the 1/48 scale Rufe fighter seaplane model.

BRASSIN

For August there are more sets for new Eduard 1/72 scale Bf 109F kits. These will be bronze landing gear legs, aileron mass balance and exhausts.

We are also releasing a number of accessories for the FM-2 in 1/48 scale. These will of course be wheels, a separate seat, bronze landing gear legs, gun barrels, a folded wing set (again with additional plastic wing moulding) and a cockpit. A LööK set will also be available for the FM-2 in August. A cockpit variant with armour plate behind the pilot's head will follow in September.

In 1/48 scale we are releasing a cockpit for Bf 109F (Eduard) with an early version of the seat. The set with the more usual seat version is among the July items. For this version of the Bf 109 we will also release two variants of the 3D printed landing gear shafts.

For the A-20G (HKM) bomber kit in 1/32 scale, we are releasing a set of wheels and a LööK set.

We are also releasing a wheel set for the F-4E (Meng, 1/48) and MiG-29 (GWH, 1/72) and in the LööK series there are also sets for the MiG-17F (AMMO, 1/48) and Hurricane Mk.I (HBB, 1/48).

For the A6M3 Zero Type 22 and 32 1/48 scale kits by Eduard we have a set for short barrel guns in the wing for August.

In conjunction with the release of the 1/48th scale F-104A/C kit (Kinetic/Eduard), sets with an exhaust nozzle and aerodynamic brakes is available for August. In the BigSin line, for clients who are allowed to do modelling sins at home, sets for the F-35A (Tamiya, 1/48) and an armament set for the F-4E (Meng, 1/48) are planned for the August offering.

In 1/35 scale, radio equipment for SdKfz 251 (Academy) and generic German fire extinguishers are planned for August.

SPACE

The August offer includes a total of seven items in the

Space range. In 1/48 scale, the Space series includes sets for Bf 110G-4 (Eduard), FM-2 (Eduard), F-16D Block 30, 40 and 50 (Kinetic) and A-10C (Academy). In 1/72 scale there is a set for OV-10A kit released by Ukrainian company ICM.

Photo-etched parts

We started with photo etched sets for the A-20G (HKM, 1/32) kit in July. In August we will follow up with details for the main wheel wells and bomb bay. These are fairly large sets for a large model. They mainly contain perforated ribs and stringers, design features that are clearly visible in both the bomb bay and main wheel wells.

For Academy's new 1/48th scale A-10C fighter aircraft kit, we have prepared for August offer the Steelbelts, a zoom set, a large photo etched set and also a set for the position lights, including masks. This kit will be covered further in the Brassin series.

We have also prepared a zoom set and a large etch set for the 1/72 scale OV-10A kit from ICM.

A set of flaps for FM-2 (Eduard, 1/48) will be available in August.

For the 1/48 scale F-16D kits from Kinetic we are releasing sets that respect the manufacturer's editions of the kit, i.e. Block 30, 40 and 50. These are three zoom sets and three large photo etched sets constructed on their basis. There is also a zoom set for all three production blocks, complete with Steelbelts. The plastic kit is missing the skin reinforcements, which is addressed by the another August photo etched set. This will also be usable for kits of other F-16 versions.

The zoom set is also available for the Eduard A6M3 Type 32 kit in 1/48 scale, which we are releasing simultaneously in the Weekend edition.

The first of several sets for the USS Nimitz CVN-68 (Trumpeter, 1/350) aircraft carrier kit is also included in the August offer.

Orders

We would welcome your pre-orders for August items by Friday, June 30, 2023. Thank you!

July items will be ready for shipping on Friday, 16 June.

We are also sending folder with the graphics included in the Leaflet. Many of you are using our Leaflet images for pre-order section of your e-shops and in your newsletters. We hope this will save you some time.

If you would like get more information, clarify some points or if you would need our help, please contact us at [department@](mailto:department@jan.bobek@eduard.cz) or contact me directly at jan.bobek@eduard.cz
