

INFORMATION FOR DISTRIBUTORS

# OCTOBER 2023

Dear friends,  
In today's Leaflet you will find the upcoming releases for October 2023.

## THE KITS

In October we will release five kits as new items and one kit as re-release of previously sold out item. At the end of this leaflet I would like to draw your attention to a few more kits that we have put back on sale in limited numbers at 2022 level prices.

First of all, I would like to draw your attention to the 1/72 scale kit of the L-39 Albatros jet trainer, which will be re-released in a Limited Edition under the name Albatros after a long time. Modelers had reservations in the past about the shape of the cockpit canopy of this kit, so we decided to respond to their comments and produced a new mold with new clear parts with modified shape. The kit will feature both the cockpit canopy with separate parts and the canopy molded in one piece. This should increase the modelers comfort when completing the model.

The kit will be released as a Dual Combo and will be used to build the L-39C, L-39ZA and L-39 ZD versions. The decal sheet will offer besides six machines of the Czech and Slovak Air Force also the possibility to build Albatros models in Ukrainian, Iraqi, Thai and Hungarian colours. The next novelty in the October Limited edition will be the Su-25K in 1/48 scale under the title Hrábě ("rake", the Czech nickname for Su-25). It will be a kit focused on the jet machines designated as Frogfoot in the NATO code, which have served in the Czechoslovak, Czech and Slovak air forces.

In connection with this kit, **a historical book in Czech language** will be published, which will be dedicated to the service of this ground attack plane in these air forces. **The kit will be released under two catalogue numbers! In one case the book will be included, in the other case the kit will be distributed without the book.** We expect that the kit with the book will be purchased mainly by Czech and Slovak modellers. We do not plan to sell the book separately in the near future.

The decal sheet will allow you to build one of ten well-known Su-25s, including pinup Anča, the Frog with hammer, or aircraft with an eagle head or shark's mouth on the nose. Zvezda's plastic parts will be complemented by resin parts in addition to the coloured photo etched parts, namely the air brakes early version, cannon muzzles, wheels, air inlets and canopy strut.

To lighten the topic of military aviation, I will mention the Z-526 Trenér Master 1/48 scale kit in ProfiPACK edition as another October novelty. This is a kit of Czechoslovak single-engine two-seat trainer and aerobatic trainer Zlin Z-526 Trenér Master including Z-526M and Z-526F versions. The decal sheet will include a choice of six aircraft from users in the Czech Republic, Poland, Austria and Germany.

In the Weekend edition, we will launch the 1/48 scale F4F-3 Wildcat kit in October. The decal sheet will allow you to build one US Marine Corps machine or one of three US Navy aircraft, including the Wildcats flown by legendary fighters "Butch" O'Hare and "Jimmy" Thach.

In the Weekend edition, we have also included the Avia S-199 kit with bubble canopy in 1/72nd scale. The kit will allow you to build either a Czechoslovak Police aircraft with a distinctive red paint job, or one of three Czechoslovak Air Force aircraft from period 1949 to 1952. In October we are bringing back Weekend edition of 1/48 scale kit F6F-5.

## MASKS

In addition to the standard mask sets, in October we will also release a set of national insignia for the Bf 109K-4 fighter aircraft in 1/48 scale.

## BRASSIN

The October offer will include three kits for the Hurricane Mk.II kit by Arma Hobby, namely two exhaust variants and a landing gear wheels.

We will also release exhausts for the Wildcat FM-2 kit in 1/48 scale (Eduard).

For the F-4E Phantom II kit released by Meng in 1/48 scale, five sets will be offered in October - aerodynamic brakes, refuelling boom, tailhook, engine nozzles and FOD covers.

For the 1/48th scale F-16 Falcon, Kinetic will release an engine nozzle powered by a GE F110 engine.

Five sets will also be prepared for Academy's 1/48th scale A-10C kit, namely ejection seat, landing gear wheels, cannon nozzle, aerodynamic brakes and refuelling bay.

The cockpit set will be a throwback to a popular Eduard kit, the 1/48th scale Bf 109G-10.

A cockpit set is also being prepared for the new Eduard 1/72nd scale Bf 109F kit for the October offer. This time it will be a variant with the older seat design.

We will release a total of three LökK sets in October. Two will be in 1/48 scale ready for the F-16D (Kinetic) and the Hurricane Mk.II (Arma Hobby). There will be a 1/35th scale kit for the AH-64E helicopter by Takom.

In the BigSin series we will release two sets for Eduard kits, the F4F-4 in 1/48 scale and the Bf 109F in 1/72 scale.

In the AFV segment, for the October offering we have prepared 1/35 scale smoke launchers for German WWII-era ground vehicles.

## SPACE

The September offer includes a total of six items in the Space range related to aircraft kits. There are 1/48 scale sets prepared for Hurricane Mk.IIc (Arma Hobby), Vampire FB.5 and FB.9 (Airfix) and Z-526 Trainer Master (Eduard). In 1/72 scale we have designed sets for Fw 190A-5 (Eduard) and F-35A (Tamiya).

## EDDIE THE RIVETER

In October we will release three generic 3D decal sets with double rivet lines, in 1/32, 1/48 and 1/72 scale. We have already launched decal sets with single rivet lines, and it seems that this innovation is welcomed by modellers.

## Photo-etched parts

In October will add new sets for the bomb bay, exterior and steel belts for the B-29A (1/72, Hobby 2000). This

completes the number of sets for this kit. We will release one set of photo etched parts for the new 1/72nd scale F-35A fighter kit in October.

The sets for the 1/48th scale Vampire Mk.5/9 kit (Airfix) are a follow-up to the previously released kits by this manufacturer. We have divided them into two separate sets for FB.5 and FB.9 versions.

We will also release a few sets in October for Arma Hobby's new 1/48 scale Hurricane Mk.II.

For the 1/72nd scale AC-130J Ghost Rider kit (Zvezda) we will release two sets dedicated to the cockpit in October, with more sets to follow in November.

We will release a total of three sets for the 1/48 scale Hawker Hunter kit by Airfix. These will be sets for the FGA.9, FR.10 and GA.11 versions.

Zvezda has released a new 1/35th scale SU-76M kit. We will release two sets of photo etched parts for this vehicle, including the fenders, but there will also be a Space 3D decal of the radio station.

We will continue with fourth set for the 1/350 scale USS Nimitz (CVN-68) aircraft carrier kit from Trumpeter.

## Kits in stock again in limited quantities

We have put three older items back on sale in limited quantity at 2022 price level:

*Cat. no.: 2132 ADLERTAG 1/72*

*Cat. no.: 8191 Avia B-534 III. série (re-release) 1/48*

*Cat. no.: 82131 SE.5a Wolseley Viper 1/48*

I would like to highlight three other kits we have put back on sale recently:

*Cat. no. 70121 Spitfire Mk.IXc late version 1/72*

*Cat. no. 82142 Fw 190 A-4 1/48*

*Cat. no. 8043 Roland C.II 1/48*

All six kits are available in limited quantities! The Roland kit will not be re-released for at least the next few years. Prices for these three kits are at 2022 levels, before the price increase in early 2023.

## Orders

We would welcome your pre-orders for October items by Friday, September 1, 2023. Thank you!

September items will be ready for shipping on Friday, 18 August.

We are also sending folder with the graphics included in the Leaflet. Many of you are using our Leaflet images for pre-order section of your e-shops and in your newsletters. We hope this will save you some time.
