

INFORMATION FOR DISTRIBUTORS

# JANUARY 2024

Hello, dear friends,

Allow me to briefly update you on the new developments coming up in December 2023, as well as a few current procedural matters.

## THE KITS

The main new item in January will be Gustav Part 1 in 1/72 scale released in LIMITED series. This is the premiere kit of the new moulds featuring the legendary Bf 109 G-5 and G-6 fighter aircraft. As with the previous 109s kits in the LIMITED series in this scale, we will also release the Gustav as a Dual Combo, in this case with two identical sets of mouldings in the package.

If any Messerschmitt is the most Messerschmitt-like, it's the G-6 version. This is the most popular customer version of this fighter plane. It was produced in more than 13,000 pieces and deployed in combat from mid-1943 until the last months of the war. The decal sheet offers a choice of four G-5 and ten G-6 machines. All the machines in the selection have the early canopy design and low rudder, so we refer to this design for the Bf 109 G-6 as the G-6 early. The kit will be used to build machines of the famous Aces, but also aircraft of the Italian, Finnish Air Force or Slovak Uprising Air Force.

Another January release will be Bf 109K-4 in 1/48 scale in Weekend edition. The decal sheet will allow to build one of three Luftwaffe machines, including an attractive aircraft with a red tulip on the nose, and one Italian Air Force machine.

After a long time, we are returning to sale of the ProfiPACK 1/48 edition kit of the legendary fighter aircraft of the Great War, the Albatros D.III. The kit features markings of famous aviators including Hermann Göring, Rudolph Berthold and the von Richthofen brothers.

The MiG-15bis will also be reissued in 1/72nd scale in the ProfiPACK edition and the P-51D-5 in 1/48th scale in the Weekend edition by January.

As part of the December shipment of the January releases, we will be able to offer 400 pieces of the Polikarpov I-16 Type 24 kit, cat. no. 8149, in the ProfiPACK edition. It has not been offered since the fire in 2020. Now we have managed to prepare for sale the remaining number of them. This kit is packaged in its original boxes.

## BRASSIN

In January we will release Brassin sets for Bf 109G-5/G-6 (Eduard) in 1/72 scale, it will be cockpit for both versions, landing gear wheels and W.Gr. 21 missile launchers.

I won't leave the topic of Messerschmitts by Eduard just yet. January's offerings will also include three sets for the 1/48 Bf 109K-4, specifically the landing gear wells, fuselage interior with radio and fuselage gun barrels. We will also release a cockpit set for the 1/48 Bf 109G-6/AS.

We will continue with Eduard's own 1/48 scale accessories for the Wildcats in January with a cockpit and wheel well for the FM-1 kit released in December, and will also include an engine and wheel well for the FM-2.

The cockpit set is a response to the 1/48 scale F-16A MLU kit from Kinetic.

We will release three 1/48 scale sets for the P-39 (Eduard), it will be a seat and two types of exhausts.

Löök sets will be released in 1/48 scale for P-39N (Eduard), TBF-1C (Academy) and P-47D (Miniart).

Our generic pedal sets for aircraft are very successful in sales. In January we will add a set with two pairs of pedals for Bf 109E in 1/48 scale. One pair will contain perforated pedals and the other will contain pedals without perforations.

## ACCESSORY SETS - PHOTO-ETCHED PARTS, MASK AND DECALS

The situation is different in photo etched sets, where we mainly service kits from other companies. From the January offer I mention only some of them.

We will offer a standard photo etched set for P-47D-25 in 1/48 scale by Miniart.

For the F-35B in 1/32 scale by Trumpeter, in addition to the usual photo etched sets, we will also offer weapon pylons under the wing. For Fulmar Mk.I in 1/48 scale by the same manufacturer we will prepare sets of mainly cockpit and wheel wells.

For Airfix's new product from the AFV segment, the Ferret Scout Car, in 1/35 scale Airfix will offer, besides the photo etched parts, a Space decal set for the radio will be released.

And for ship model builders, two 1/350 scale sets for the USS Iowa (BB-61) kit by Trumpeter will be available in January. I'll also mention

decal stencil set designed for 1/32 scale Italeri F-35A kit and a set of 1/48 scale F6F Hellcat masks for national insignia with red outline.

In addition to the aforementioned sets, the BigEd, BigSin and Löökplus items are also traditionally offered.

## SHIPPING OF DECEMBER ITEMS

The December releases are ready for shipping and will be dispatched from Thursday 16 November. I would like to ask you, if you have not already done so, please send in your orders for the December new releases and any restock items. At the same time, I ask that you send in your pre-orders for the January new releases, preferably by Friday, December 1, 2023. It is advisable to meet this deadline, as we are putting the number of January new releases into production based on the status of the pre-orders to cover our known quantity requirements for that item.

If we do not have your pre-order, we do not guarantee delivery of all items in your future order. Such situations occur especially with LIMITED series items.

New releases for January 2024, which will be released for sale to retailers and distributors from 13 December. We would appreciate it if you would send your orders for stock items optimally by Friday 8 December 2023, but no later than 13 December. For all orders received by this date, we guarantee their dispatch by the close of the sales department, which is scheduled for 21 December.

For orders received after December 13, 2023, we cannot fully guarantee shipment by the close of the sales department. If we are unable to ship such delayed orders by December 21, they will not be shipped until after January 4, 2024, when we anticipate sales to begin in 2024.

If you would like to get more information, clarify some points or if you would need our help, please contact us at department email address or contact me directly.

Thank you for your kind attention and support!

Jan Bobek
