

INFORMATION FOR DISTRIBUTORS

MARCH 2024

Dear friends,
I would like to inform you about new releases coming up in February 2024.

THE KITS

The FREEDOM TIGER 1/48 scale kit in Limited edition will be the main new release for March 2024. Behind this kit name is the F-5E Tiger II, which is built on plastic parts purchased from the well-known Taiwanese company AFV Club. The decal sheet will offer eight colour schemes. First of all, these will be the colourfully camouflaged machines of the Aggressor units of the US NAVY, US MARINES AND US AIR FORCE, which simulate enemy air forces during exercises. Units represented are VFC-13, VFA-127, 65th FWS of the 57th FWW. The selection also includes an aircraft from Top Gun. Also represented are aircraft from the Brazilian, Thai, and South and North Vietnamese air forces. We have a very personal relationship with the latter aircraft, which served in both Vietnamese air forces.

The F-5E Tiger II serial number 73-0087 has been in the Kbely Aviation Museum in Prague since the 1980s. Almost twenty years ago, it was the first aircraft we ever scanned, and although we didn't end up using the data to design the kit, we gained valuable experience. Then last year we had the privilege of participating in the reconstruction of this aircraft. In the March issue of INFO Eduard magazine we will bring you a report about the reconstruction of the Kbely F-5E, in which we will also introduce you to our modest contribution to this renovation.

The kit also contains the usual set of masks, photo etched parts and Brassins, which this time represent the wheels and RWR antennae. We will very likely continue with AFV Club's F-5 kits in the future with at least one additional item that rebuilds later production run F-5Es and upgraded machines. In the ProfiPACK edition in 1/72 scale we release the Bf 109G-2, the first of our new Gustavs. The boxart will feature the aircraft of Hannes Trautloft, commander of JG 54, in a dogfight with one of the prominent Soviet Pe-2 crews. The decal sheet will also offer the opportunity to build the machines of fighter aces Hermann Graf of 9./JG 52, Anton Hafner of 4./JG 51 from Africa, the machine of Hans Hahn, commander of II./JG 54 (with which he was captured and his plane was later exhibited in Moscow), Wilhelm Crinius of 3./JG 53 from the Mediterranean and also the brightly coloured plane of Rudolf Müller of 6./JG 5, which also ended up in the hands of the Soviets.

In 1/48 scale in the Weekend edition we are releasing the Fw 190A-5 in a version we call Light fighter. These are the aircraft that have the external guns in

the wing removed. As is usual with this line in recent years, it will include decals for four machines. Apart from the well-known aces Helmann Graf and Walter Nowotny, it will be a machine from 2./JG 11 with the inscription Rübezahl (woodwose) and also a machine from Stab IV./SKG 10, in which Oblt. Kurt Hevler in June 1944. He is one of the few Luftwaffe airmen who came from the Prague German community.

In February, a 1/48 scale kit of the British Spitfire Mk.IXc late fighter and the German Bf 108 courier aircraft will be re-released in the ProfiPACK edition.

BRASSIN

One of the most attractive new items in the Brassin range for March is the 1/72 scale engine for the Bf 109G-6, designed for the new Eduard kit. The kit will also include engine cowling plates.

We are also releasing 1/48 scale cockpit sets for the Bf 109G-10 WNF and Fw 190A-8/R2, both for Eduard kits. We also have a cockpit set ready for March for Kinetic's 1/48 scale F-16C Block 30 kit.

We are releasing seats for Revell's 1/48 scale Tornado kit, which were originally part of kits we introduced some time ago in the Limited series. Also, another of the March Brassin releases is related to the Limited series kit. On sale will be the flaps and slots for the Su-25, the latest kit prepared for Zvezda's Su-25 and for its successful Eduard Hrábě release, launched last October.

We will offer seats and wheels for the 1/48 scale F-35B kit produced by Tamiya. Among the small sets I would like to mention the pedal set for Bf 109E in 1/32 scale, which is a continuation of previous successful editions of this accessory in 1/72 and 1/48 scale.

The LööK sets will be released in 1/48 scale in March for the I-16 Type 10 (Eduard), Sea King HU.5 (Airfix) and TBM-3 (Academy / Accurate Miniatures) kits. The LööKplus series will include 1/48 scale sets for Sea King HAS.1 and HAS.5 (Airfix) and the BigSin series for FM-1 and FM-2 Wildcats in 1/48 Scale (Eduard).

ACCESSORY SETS - PHOTO-ETCHED PARTS, MASK AND DECALS

For the FREEDOM TIGER kit, which will be released in the Limited series (F-5E), we will release a photo-etched set and Steelbelts.

Tamiya recently released a new 1/48th scale F-35B kit, and as you might expect, our photo etched set is ready for the March releases. It is designed very similarly to the F-35A set. And just like for the F-35A, the March new release also includes a set of masks for painting RAM panels on the surface of the model.

We have also finished the photo-etch sets for the

1/48 scale F4U-1A/2 Corsair kit from a new, unknown to us, Chinese company Magic Factory. They are releasing their kit as a dual kit in a concept very similar to our Dual Combos, which is fine with us and we are happy to improve their kit slightly with our sets. We assume that our customers will welcome them. We will take the same approach to Airfix's newest kit, the 1/48th scale Gannet AS.1/AS.4. We will release separate photo-etched sets for the two versions included in the plastic kit, we will produce masks for spraying emblems and large markings.

Polish Arma Hobby has released a 1/72nd scale P-400 Airacobra kit. Our new photo etch set is based on the existing set for P-39Q, with the cockpit details, especially the dashboard, undergoing the biggest modifications. Similarly, we will proceed to the next new release from this manufacturer, the Hurricane Mk.IIb in 1/48 scale. The photo-etch for this kit is a conversion of the set intended for the Mk.IIc. No doubt the photo-etched set for the very nice A-6A Intruder kit in 1/72nd scale, released by Trumpeter, will also be interesting. The second photo-etched set then continues with accessories for the 1/350th scale Ark Royal kit by I love kit.

In the Space series we will release 3D decals for the A-6A (1/72, Trumpeter) and the following 1/48 scale kits: F-5E (Eduard/AFV Club), F-35B (Tamiya), Hurricane Mk.IIb (Arma Hobby), Gannet AS.1 and AS.4 (Airfix), F4U-1A and F4U-2 (Magic Factory) and Bf 108 (Eduard).

I'd also like to mention the 1/48 scale decal set of stencils for the F-35B by Tamiya, and the separate decal sets of positive rivets for the aircraft cover panels in 1/72 and 1/48 scale in the Eddie the riveter series.

SHIPPING OF FEBRUARY ITEMS AND PRE-ORDERS OF MARCH NEW RELEASES

As every month, I ask you to send us your **pre-orders for the March releases, preferably by Thursday, February 1, 2024**. Based on your pre-orders, we are putting the number of items into production. If we do not have your pre-order, we do not guarantee delivery of all items on your future order **as there may not be enough items available. This situation occurs especially with LIMITED series items.**

February new releases will be ready for shipment starting Tuesday, January 16, 2024.

marketing materials, please contact me directly. Thank you for your kind attention and support!

Jan Bobek
