

INFORMATION FOR DISTRIBUTORS

# APRIL 2024

Dear friends,  
I would like to inform you about new releases coming up in April 2024.

## THE KITS

The main new release for April 2024 is the 1/72 scale Limited Edition Gustav Pt. 2 kit, which focuses on the late versions of the Bf 109G-6 and Bf 109G-14 fighters with the DB 605A engine, specifically featuring the small bulges on the engine cowling. The selection of markings covers all the battlefields where „Gustavs“ of these versions were used, including aircraft from the Finnish Air Force (Ilmavoimat), the Italian Air Force (Aeronautica Nazionale Repubblicana), and the Hungarian Air Force (Magyar Királyi Honvéd Légierő). Additionally, planes of fighter aces such as Erich Hartmann, Anton Hafner, and Eino Luukkanen are represented. The kit predominantly features aircraft with a new type of Erla canopy, and some of them will have tall vertical tails. The 1/72 scale edition of the Messerschmitt Bf 109G will continue this year, with the second half of the year seeing the introduction of the G-6/AS and G-14/AS versions.

In the ProfiPACK 1/48 edition, we are releasing the F4F-4 Wildcat late kit. The decal sheet enables builders to create one of six brightly coloured planes representing US Navy units from the Pacific, European, and Mediterranean theatres. One aircraft belongs to a USMC unit from late 1943 in Polynesia.

After a long absence, a 1/48 scale kit of the famous fighter monoplane, the Fokker E.III, is back on sale. It is presented in the Weekend edition and, as usual for this series, includes decals for four aircraft, three German, and one Austro-Hungarian. Of course, the Fokker of legendary German pilot Ernst Udet must not be missing among them.

In April, we are re-releasing two ProfiPACK kits: the MiG-21PFM in 1/48 scale and the F6F-5 Hellcat in 1/72 scale.

## BRASSIN

Among the anticipated April releases is a 1/72 scale model of the engine for the

Bf 109G-2/G-4 designed for the new Eduard kits. The engine set includes complete engine cowlings. LööK sets will also be available for purchase for these versions in April. For the G-6 version, we are releasing machine gun barrels made by direct 3D printing.

For the 1/48 scale F-16C kits from Kinetic, sets featuring two versions of the cockpit for the Block 42 aircraft will be available in April. Also arriving in April for the F-16 are sets with detailed landing gear wells.

Staying with jet aircraft and 1/48 scale, in April, we are releasing Brassin sets for the Su-25 (Zvezda) focusing on the gun muzzle and air brakes.

Additionally, the 1/48 scale right engine for Tamiya's P-38J kit will be available. We already launched the left engine in February, and the two sets are not identical in design. A set with both engines will be released later. The Airfix 1/72 scale Me 410 kit comes with main landing gear wheels and engine exhausts.

Among other sets, I would like to mention LööK for the F-5E in 1/48 scale by Eduard/AFV Club, and also the F-35B kit by Tamiya, for which we will also release a weapon set.

## ACCESSORY SETS – PHOTO-ETCHED PARTS, MASK AND DECALS

For the new 1/48th scale U-2R kit by Hobby Boss, we are releasing a large photo-etched set and two Zoom sets. Similarly, the MiG-29K from the same manufacturer is equipped with the same concept of photo-etched accessories, also in 1/48 scale.

Regarding the 1/72 scale OV-10D+ kit by ICM, we are modifying the design of the existing set of etchings for the OV-10A version. The range of sets for the D+ version will be similar, with changes mainly in the cockpit.

We are adopting a similar approach for the P-47D-30 in 1/48 scale by Miniart, where we base it on the D-25 version.

HKM has released a 1/48 scale kit of the legendary Lancaster B Mk.III Dambuster, which follows up on the previous kit of the B Mk.I version. Obviously, the Dambuster

kits are based on the B Mk.I version, with the biggest changes in the bomb bay and the building instructions.

After a long break, Academy has released the relatively hard-to-find PBM-5A Mariner kit, previously released by Minicraft. We are completely revising and upgrading our older photo-etched sets, with some parts simplified in terms of assembly.

Takom has released a new 1/35th scale Hetzer tank destroyer kit, and we are releasing one large photo-etched set to go with it in April.

For I love kit's 1/350 scale HMS Ark Royal aircraft carrier kit, we are continuing with the 3rd and 4th sets.

In the Space series for April, we are providing the popular 3D decals for the OV-10D+ (1/72, ICM) and PBM-5A (1/72, Academy). The following 1/48th scale sets are under preparation: the U-2R and the MiG-29K (Hobby Boss), the P-47D-30 (Miniart), the iconic Lancaster B Mk.III Dambuster (HKM), and the MiG-21PFM (Eduard) in two color schemes, grey and turquoise.

## SHIPPING OF MARCH ITEMS AND PRE-ORDERS OF APRIL NEW RELEASES

As is customary each month, I kindly request that you submit your **pre-orders for the April releases, preferably by Friday, March 1, 2024**. Based on your pre-orders, we will determine the quantity of items to produce. Please note that **if we do not receive your pre-order, we cannot guarantee the availability of all items** for your future orders, particularly for LIMITED series items.

Shipments of the March new releases are already underway.

Should you require assistance with marketing materials, please do not hesitate to contact me directly.

Thank you for your attention and continued support!

Jan Bobek
