Coupons attained along with the collectable Eduard Sticker Game are to be affixed to this card. These coasters consist of a basic set numbered 1 to 12 and two wildcard issues (Jolly Joker). The coupons may be affixed into their specified spots on the card using one of two systems:

**System PLUK** - this describes the affixing of all twelve coupons in their proper places with the use of wildcard coupons as needed instead of any missing numbered ones. This system allows the winning of any of the main prizes of the game.

**System ROJ** - the affixing of random coupons in random order with possible duplication over all twelve spaces on the card. This version allows the winning of one of the second place prizes of the game.

The card with all required coupons affixed to it along with all relevant personal information should then be sent to Eduard Model Accessories, Mirova 170, 43521 Obrnice, Czech Republic.

All game rules and conditions, a list of prizes and how to acquire more collectable coasters and coupons can be found at [www.eduard.com/stickers](http://www.eduard.com/stickers).
