Dear friends,

We are here with first 2015 newsletter to introduce you March 2015 releases. However, the first worlds are about February releases timing. All February releases will be available in our store on Tuesday, January 20th. Your orders will be dispatched as soon as possible after receiving, the earliest orders first. Please note, the main February release, R0010 Avia B.534 Royal Class edition 1/72nd scale kit, will be available in 1500 pcs only. The kit is introduced on Eduard Facebook profile right now, please pay attention to study these information, as well as information about this kit in latest Newsletter of December 2014. As you know, these 1500 editions are often sold out very quickly, like the BUNDES-FIGHTER in January, 2015, which was sold out within one week after sale openings. I absolutely understand Avia B.534 is a very Czech aircraft, and this product is targeted to Czech domestic market mainly, but Avia is a very nice kit, which represents new Eduard standard to be used for our 1/72nd Revolution. Revolution is starting now, don’t hesitate, join us!

Our 1/72nd scale Revolution will be introduced in Nürnberg, and it is one of the themes for Nürnberger Eduard press conferences. I just remember, we organize two press conferences in the Information Center on Friday, January 30, 2015. Both meetings are located in Conference room Helsinki, in NCC Ost, level 2. The first one, in 14:00, is dedicated to the explanation of our information and sales procedures, the second one, in 15:30, is dedicated to the 2015 new releases. Both conferences will be in English. We will be in our booth to give you all information if you can’t come on Friday, of course, just agree your term for a meeting, please! Our booth in Toy fair is located in Halle 7, booth B75. You will be very welcomed, we are looking forward to meet you there!

Concerning March 2015 releases, please note the new Spitfire Mk.VIII plastic kit in 1/48th scale. This kit follows our famous Spitfire Mk.IX family, having plenty of new parts. What is probably most important, there are main parts, fuselage as well as the wing, newly designed with respect to the Mk.VIII specific airframe, so it is not a simple conversion of the Mk.IX, as it could be suspected. This is new kit, a very nice kit! Mk.VIII is released in Profipack edition first, under item number 8284, and it is expectable this one could be a bestseller. The next Spitfire Mk.VIII item, a Limited Edition kit dedicated to the Australian Spitfires Mk.Vllls, with a book about Mk.Vllls in Australian service in the box, will be released later this year, it is expected in 4th quarter of 2015.

There are some related products to 8284, in photoetch as well as in Brassin line. Also, please study the related products to the 8284 carefully, as there are many products designed to be used with original Mk.IX kits, which are related to Mk.VIII too. It is good to know more about such items! This is not only reason to study this newsletter. Please do it, and prepare and e-mail us your pre-order for March releases as soon as possible, optimally until February 1st, 2015. Yes, I know, we are still in Nürnberg on that date, and Martin is there too, but don’t worry, we will be working hard even during our stay in Nürnberg to serve you well and your orders will be carefully taken in the evidence in any time!

Ladies and gentlemen, we are looking forward to seeing you in Nürnberg! See you soon!

Vladimir Sulc, CEO, Eduard MA
