

INFORMATION FOR DISTRIBUTORS

# SEPTEMBER 2018

Dear friends,

The first I have to tell you today is something about E-day which is a late September event. The E-day 2018 is scheduled to September 28th, 2018, which is Friday. The location is Exhibition center in Lysa and Labem, some 30 km far northern from Prague. The reason for Friday is that it is free day here in Czech Republic. You can find the basic information about the show here, for all vendors the registration is open, find the conditions and application [here](#).

Concerning the September releases, there are three kits in the list. The ProfiPACK line brings MiG-21MF in 1/72nd scale, this boxing represents most common MF version produced in Moscow plant. I personally expect this would be best selling MiG-21MF boxing. Weekend line has SE.5a with Hispano Suisa engine in 1/48th scale. Both these ones are quite conventional items, however. What is really exceptional is 1/48th scale Limited Edition item 11119 named Reichsverteidigung. Reichsverteidigung means Defense of the Reich in German. This Dual Combo item contains one Bf 109G-6/G-14 kit and one brand new Fw 190A-8/R2 kit in the markings of the units engaged in the system of the air defense of the domestic territory of Germany. The Fw 190A-8/R2 Sturmbock is a new tooled item, another of the new tooled Focke-Wulfs family, and the first released of the late subversions, which were the best sellers among the old line of the Fw's. It is expectable the presence of the Sturmbock, colorful markings of the both of the aircraft types as well as the attractivity of the theme can make great bestseller from this item!

What about the aftermarket accessories? Brassin first. There is the cockpit set for 1/48th scale Fw 190A-8/R2 in Brassin line. Brassin line brings more interesting subject, like two new LööK sets, the first two in 1/48th scale in this subline. These are sets for Fw 190A-5 (Eduard) and Bf 109G-6 (Tamiya). LööK sets are actually three prepared for September, with the 1/32nd scale Spitfire Mk.IXc (late series) for Tamiya kit in the collection. See also two other sets designed for Tamiya's Spitfire Mk.IX, two types of four spoked wheels used on late Spitfire versions. More Brassin sets for Tamiya's Spitfire will follow latter. The wheel sets collection is growing with F6F Hellcat wheels for Eduard kits in 1/72nd scale. There is one more interesting set in 1/72nd scale Brassin line - the Fw 190A-5/U12

cannon pods, which are the famous underwing pods with two cannons in each pod, known from the 1/48th scale set released now in August. We continue with weapon sets with AGM-158 in 1/48th scale, GBU-32 Non-Thermally Protected in 1/72nd scale and GBU-38 for B-2A stealth bomber in 1/72nd scale. We are also going to release engine set for new Wellington Mk.Ia/lc, and what could be really good sellers are the BIG Sin sets, for Bf 109G-6 ADVANCED in 1/48th scale designed for Tamiya kit, and MiG-21MF Fighter Bomber in 1/72nd scale for Eduard kit, which match with MiG-21MF kit released together. See especially the Bf 109G-6 set to understand what is the content of the set.

We do prepare the Wellington Mk.I bomb bay set in the PhotoEtch line of accessories, there are also nice sets for also nice older Academy kits AH-64D and F-18E in 1/72nd scale too. 1/48th scale shows today the sets for Su-27UB and L-39ZA by Trumpeter, and we are back to the Spitfire Mk.22/24 by Airfix, as Airfix re-release the kit, we decided to do new modern set for this kit, which we see like very nice job. Maybe you still remember older successful Eduard re-boxing of this Spitfire in Limited Edition line couple of years ago. There are also the mask sets including TF type mask sets in Mask line for all these 1/48th scale kits, as well as for 1/72nd scale AH-64D flown by RAF in Afghanistan and F/A-18E. In 1/32nd scale, we are working on I-153 Chaika sets designed for new ICM kit, with mask set too, and in 1/35th AFV scale on new set for T-34/85 by Zvezda. See also three new NAVY sets with two steel flag sets, and four BIG Ed sets, with Su-35S and He 111H-6 sets in 1/48th scale, Panther Ausf.A in 1/35th and Sea King HAR.3 / Mk.43 in 1/72nd. Well, you can see most of these described items on the following pages, as usual.

Ladies and gentlemen, that's it. Thank you for your cooperation, thank you to reading and studying this material. Please note the August 2018 releases are available in our store, please complete your orders, we are ready for dispatching your orders! Thank you again!

Vladimír Šulc, CEO, Eduard MA
